

## Let's Harvest by Al Start

The summer sun is lower in the sky  
The leaves on the trees are slowly turning dry  
And there's a message on the breeze  
It says 'It's time, it's time, oh please'

So, let's harvest – reap what we sow!  
Let's harvest - eat what we grow!  
Let's harvest – reap what we sow!  
Let's harvest - eat what we grow!  
And when the sun goes down  
We'll share it all around

The fruit trees bend and nod, the time is now  
The golden field is ready for the plough  
And when our work is done  
Then the autumn comes

There'll be apples and pears, damsons and cherries  
Plums and grapes, currants and berries  
Barley and wheat to make our toast  
Nuts and seeds to dry and roast

Carrots and leeks, peas and beans  
And more potatoes than you've ever seen  
We'll make jams and juice, crumbles and pies  
And when nobody's looking we'll try the wine!  
(Alt line: There's so much food, we can't believe our eyes!)

Repeat last line: Let's harvest!
